The Examiner is respectfully requested to make these references
of record in the present application by initialing and returning
a copy of the enclosed Form PTO 1449.

37 C.F.R. §1.98(a)(2)(iii) provides that an Information
Disclosure Statement shall include, for each cited pending U.S.
application, a legible copy of the application specification
including the claims and any drawing of the application, or that
portion of the application which caused it to be listed including
any claims directed to that portion. Under 37 C.F.R. §1.98(c),
when the disclosures of two or more patents or publications
listed in an Information Disclosure Statement are substantively
cumulative, a copy of one of the patents or publications may be
submitted without copies of the other patents or publications,
provided it is stated that these other patents or publications
are cumulative. In accordance with 37 C.F.R. §1.98(c), copies of
certain of the references listed above are not being submitted
herewith as they are cumulative.

Specifically, U.S. Serial No. 09/888,938, filed June 25, 2001, is
a continuation of U.S. Serial No. 10/831,823, filed April 2,
1997, which issued as U.S. Patent No. 6,344,545 B1 (reference 2).
Therefore, a copy of U.S. Serial No. 09/888,938 is not attached
hereto. However, in accordance with 37 C.F.R. §1.98(a)(2)(iii),
a copy of the claims pending in U.S. Serial No. 09/888,938 is
attached hereto as Exhibit 4.

U.S. Serial No. 10/323,314, filed December 19, 2002 is a
continuation of U.S. Serial No. 09/796,202, filed February 28,
2001, which issued as U.S. Patent No. 6,548,636 B2 (reference 3).

Applicants: William C. Olson et al.
Serial No.: 09/594,983
Filed: June 15, 2000

Therefore, a copy of U.S. Serial No. 10/323,314 is not attached hereto. However, in accordance with 37 C.F.R. §1.98(a)(2)(iii), a copy of the claims allowed in U.S. Serial No. 10/323,314 is attached hereto as Exhibit 5.

References 6 and 7 are cumulative to each other since each contains an identical disclosure. Therefore, a copy of reference 7 is not enclosed.

References 8 and 9 are cumulative to each other since each contains an identical disclosure. Therefore, a copy of reference 9 is not enclosed.

References 11 and 12 are cumulative to each other since each contains an identical disclosure. Therefore, a copy of reference 12 is not enclosed.

References 17, 18 and 19 are cumulative to each other since each contains an identical disclosure except that reference 19 contains an additional paragraph at the beginning of the application claiming the benefit of an earlier application, U.S. Provisional Application No. 60/112,532 (reference 18), and also provides the ATCC Accession Number for the PA10 antibody, which Accession Number is not provided in references 17 and 18. Therefore, copies of references 17 and 18 are not enclosed.

References 25 and 26 are cumulative to each other since each contains an identical disclosure. Therefore, a copy of reference 26 is not enclosed.

U.S. Serial No. 10/763,545, filed January 23, 2004, is a continuation of the subject application. Therefore, a copy of U.S. Serial No. 10/763,545 is not attached hereto. However, in accordance with 37 C.F.R. §1.98(a)(2)(iii), a copy of the claims

pending in U.S. Serial No. 10/763,545 is attached hereto as Exhibit 24.

If a telephone interview would be of assistance in advancing prosecution of the subject application, applicants' undersigned attorney invites the Examiner to telephone him at the number provided below.

Pursuant to 37 C.F.R. §1.97(b)(4), no fee, other than the enclosed \$130.00 Petition fee and \$385.00 filing fee for an RCE, is deemed necessary in connection with the filing of this Communication and Supplemental Information Disclosure Statement.
